

Working in Germany – Morjensta pöytään!

Topi Mäkijärvi, Miska Rajavuori & Valtteri Skofelt
16.03. – 03.04.2009

Our plane landed at 8 pm in the airport of Düsseldorf. The weather was so much warmer than in Finland and no snow at all, it was great. Mr. Piontek and our hosts were waiting for us in the lobby of airport.

They organized job and housing for us. Topi worked and lived at Elektro Kahl, Miska worked at Elektro Bödiger and lived at Andreas Grund's family, and Valtteri lived in Holte's family and worked in Avea Company.

Valtteri Skofelt, Miska Rajavuori , Topi Mäkijärvi (l t r)

We started our work at the next

day without any problems. After the day of work our hosts showed some local places, like shopping central and local churches. The German architecture is so much different when you compare it in Finland's architecture.

German people are very friendly and the prices are much cheaper than we see in Finland. Local food is delicious, especially those Schnitzel's.

We visited different places like at Schloss Burg's Castle and Köln's Dom. Both of those have fascinating details inside and outside the building.
